

# Gain, Train and Retain

**CareerCenter**

A proud partner of the [americanjobcenter](#)® network

## MANUFACTURERS:

How much easier would life be if you could train your entry level employees for mid-level and highly skilled job openings?

Registered Apprenticeship provides world-class training for employees, combining hands-on, work-based learning with related classroom instruction using the highest industry standards to complement skills gained on the job.

### Sponsoring a Registered Apprenticeship will help your company:

- Gain, train and retain a highly-skilled and diversified workforce.
- Improve productivity, profitability and your bottom line.
- Offset training costs.

Learn how Registered Apprenticeship works and the funding available to help you get started.

Speaker: Lucinda Curry  
Director of Apprenticeship Works  
[Robert C. Byrd Institute for Advanced Flexible Manufacturing](#)
