

Is Defect Reduction in your goals for 2018?

Maine MEP is pleased to announce the addition of Bo Jackson to our team. Bo brings 25 years of experience working in the Toyota Production System. As Corporate Quality Manager for one of Toyota's supply chain partners, Bo and his team reduced defects from 1,692 parts per million to 1 ppm.

Bo is immediately available to help your teams **Identify, Measure, and Reduce** your defects whatever their nature.
