

Gain, train and retain

MANUFACTURERS:

Learn how you can train your entry level employees for mid-level and highly skilled job openings.

Registered Apprenticeship combines hands-on, work-based learning with related classroom instruction using the highest industry standards to complement skills gained on the job. Sponsoring a Registered Apprenticeship will help your company:

- Gain, train and retain a highly-skilled and diversified workforce
- Improve productivity, profitability and your bottom line.

Join us for these interactive workshops. Employers have the opportunity to learn about Registered Apprenticeship and register their programs on site. The event will bring together all necessary program partners, including an Apprenticeship Specialist from the Maine Department of Labor and a group sponsor and related technical instruction provider, Apprenticeship Works.

CareerCenter

A proud partner of the [americanjobcenter](#)® network

Speaker:
Lucinda Curry,
Apprenticeship
Works, the Robert C.
Byrd Institute (RCBI)
