

William “Bo” Jackson

Project Manager

207-623-0680

boj@mainemep.org

William “Bo” Jackson brings to the Maine MEP over 30 years of manufacturing experience in Lean Manufacturing, Quality Management Systems, and Supplier Relations. Located in the Bangor region, Bo will work with clients in the northern and eastern part of Maine.

Prior to joining Maine MEP, Bo worked for two major automotive suppliers in Maine as a Corporate Quality Manager, managing internal and external supplier and customer quality. Additionally he held roles as supplier quality manager and lean manufacturing manager. Bo was instrumental in helping Somic America, Inc. receive the Toyota Superior Quality Award in 2015. He has taught associates lean manufacturing principles including elimination of waste, Just in Time, 5S, and standard work.

Formally trained in Toyota Production Systems, Bo has extensive proficiency in supply chain and supplier relations. He has led teams responsible for ensuring that supply chain companies develop their process in line with the design of the customer’s intent, and verified their systems to ensure compliance with the end customer’s needs.

A veteran of the U.S. Navy, Bo studied business at Frances Marion University. His professional certifications include ISO/TS 16949 Internal Auditor, Six-Sigma Green Belt, and Geometric Dimensioning and Tolerancing.
