

LE202: Time Wise® Kaizen Rapid Improvement Event

Accomplish Performance Improvement in Days Rather than Months and Sustain the Gains

LE202 is a Lean implementation event that involves a series of activities which follow a structured 10-step process enabling a team to achieve **rapid, action-oriented improvements** identified during the Value Stream Mapping Event (LE201).

Specifically, the Kaizen event addresses individual problem areas identified by Process Mapping, using the industry standard Plan-Do-Check-Act problem-solving model.

Learn to—

- Solve priority problems identified by VSM
- Bridge current state and targeted future state

Use intervention techniques to—

- Reduce production lead time, inventory, and cost
- Increase available capacity
- Decrease area footprint
- Reduce order lead time
- Reduce material and operator travel distance

The 10-step Kaizen process is a data-driven method of focusing on identifying and resolving specific problems related to the desired future state. Once these problems are identified and resolved, typical results are—

- 50% improvement in productivity
- 85% improvement in quality

Key Features

- A Kaizen facilitator certified by the Time Wise Institute

- All the materials needed for a successful Kaizen event are supplied — includes a complete set of forms, guides, and detailed “how to” instructions
- An educational component that facilitates knowledge transfer of the Kaizen methodology to participants
- Access to Internet and client-site business technologies that provide a centralized team workspace for every VSM event
- Team services include event management tracking, document collaboration, library of reference materials with document templates and real-time performance monitoring.

Key Benefits

- Effectively implement and sustain high impact improvement opportunities
- Accomplish in days what other methods take months to get done
- Reduce production lead time, inventory and cost
- Increase available capacity without additional capital investment
- Increase productivity and product quality at the same time

Deliverables

- Comprehensive roll-up report for management
- Kaizen storyboard (improvements)
- Continuous improvement plan for sustaining improvements
