Organization-Level Roles

These permissions apply to any account record, manufacturer, or researcher who is registered as a CONNEX platform user.

OWNER

This system-assigned role applies to the first CONNEX user to claim an organization's profile. The user designated as Owner can control 100% of the organization's use of CONNEX. The Owner can also extend invitations to others to help manage and use the platform, including people outside of their organization. This role allows the user to:

- Add/invite users
- Conduct searches
- Create/view supply chain
- Manage paid subscriptions
- Post/respond to Exchange Center listings
- Update the company profile

ADMINISTRATOR

This owner-assigned role includes all the above functionality of the owner.

PROFILE EDITOR

This owner-assigned role allows the user to:

- Conduct searches
- Update the company profile

PROFILE VIEWER

This owner-assigned role allows the user to:

- Conduct searches
- See, but not edit, the company profile data, including any hidden details

Manufacturer–Specific Roles

These permissions apply to registered Manufacturing users that have been assigned this role by the designated account Owner. These users will not be able to see or manage your profile unless you assign them one of the organization-level roles described above.

EXCHANGE CENTER MANAGER

This owner-assigned role allows the user to:

- See Exchange Center listings
- Create Exchange Center listings
- Respond to Exchange Center listings
- View Exchange Center responses your company receives

EXCHANGE CENTER VIEWER

This owner-assigned role allows the user to:

- See Exchange Center listings
- View Exchange Center responses your company receives

SUBSCRIPTION MANAGER

This owner-assigned role allows the user to:

- Only has access to the "My Subscriptions" section
- Can upgrade an organization or organizations to national access
