One hour Cybersecurity Workshop

In this free, one hour educational webinar, participants will gain an understanding of what is meant by cybersecurity resiliency, how to manage their risk, and what steps they can take to ensure they adequately protect all information and the future of their business.

Topics covered include:

- Understanding cyber resiliency and cybersecurity risk management
- Defense Federal Acquisition Regulation Supplement (DFARS) Requirements including Protecting Covered Defense Information, Flow Down and Incident Reporting
- Understanding and Utilizing National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171
- Cybersecurity Maturity Model Certification (CMMC) requirements and it's current status
- What steps you can take to ensure you remain eligible to do business within the DoD Supply Chain

Who Should Attend?

Owners, CEOs, COOs, CIOs, Quality Managers and IT professionals of manufacturers and other companies with contracts within the Department of Defense Supply Chain or with a desire to gain a contract within the DOD supply chain, whether you're a prime, subcontractor to a prime, or in a lower tier.

About the New England Regional Defense Industry Collaboration (NERDIC): NERDIC is a partnership of the state economic development organizations of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont, working to support Small and Medium-Sized Enterprises (SMEs) that provide parts, assemblies, to Tier One providers working with the U.S. Department of Defense. NERDIC has financial support from the Office of Economic Adjustment, U.S. Department of Defense. The content reflects the views of the New England Collaborative and does not necessarily reflect the views of the Office of Economic Adjustment, the U.S. Department of Defense, or the participating states.

Event Details
